

MEN

METAL EXHAUST NOZZLE

The Metal Exhaust Nozzle (MEN) is highly suitable for Plymovent fixed extractors and exhaust reels.

The MEN is designed to take in ambient cooling air, thereby reducing the exhaust emission temperature.

The nozzle is made of a powder-coated metal pipe and a spring-loaded rubber lid. The lid shuts tight and functions as a damper when the nozzle is not in use. Operators can open the lid using an ergonomic handle.

APPLICATIONS

The MEN is intended to be used for the following applications:

- To eliminate hazardous vehicle exhaust emissions with our vehicle exhaust capture and removal systems for the following segments: fire and emergency service stations as well as military facilities.

SPECIFICATIONS

Physical properties	
Material	<ul style="list-style-type: none"> Powder-coated metal NBR rubber
Color	Black
Ambient conditions	
Operating conditions	<ul style="list-style-type: none"> 300 °C (570 °F) continuously Relative humidity max. 80%
Suitable for outdoor use	No
Where used	
All Plymovent hose drops or hose reels	
Scope of supply	
MEN Nozzle, hose clamp
