Since 1975

FUMECADDIE™

MOBILE EXTRACTION UNIT

Excellent for any vehicle repair shop or full-service vehicle repair center, the Plymovent FumeCaddie™ is designed to capture exhaust fumes at the source emitted by any vehicle or apparatus running indoors and extract them from the building. The FumeCaddie™ can be connected directly to the vehicle or apparatus exhaust pipe with an easy-to-use nozzle*.

The FumeCaddie™ can be connected to any 100 mm (4 in.) hose and Plymovent nozzle to be quickly connected directly to a vehicle, SUV, truck, recreational vehicle, motorcycle or any other type of engine exhaust tailpipe.

The FumeCaddie's™ portable exhaust fan will remove the fumes from the source through a suction hose and deliver them to the outside of the structure through the exhaust hose*. The extractor consists of a single phase 50 Hz fan, a 5 m (16 ft) power cord and a motor starter with thermal breaker, all assembled on an easy to maneuver, ergonomic cart.

* hoses and nozzle to be ordered separately.

**YOU CAN DEPEND ON PLYMOVENT
PRODUCTS TO RELIABLY AND
CONSISTENTLY MEET THE SPECIFICATIONS
THAT YOUR APPLICATION DEMANDS.**

NEW PRODUCT

BENEFITS

- ✓ **Excellent** movability
- ✓ **Integrated** thermal breaker
